

WHY JAVA?

Review for Beginners

Speaker :
Hennadii Pavlovich Kolomoiets

Zaporizhzhia, 2022

Java is a modern programming language

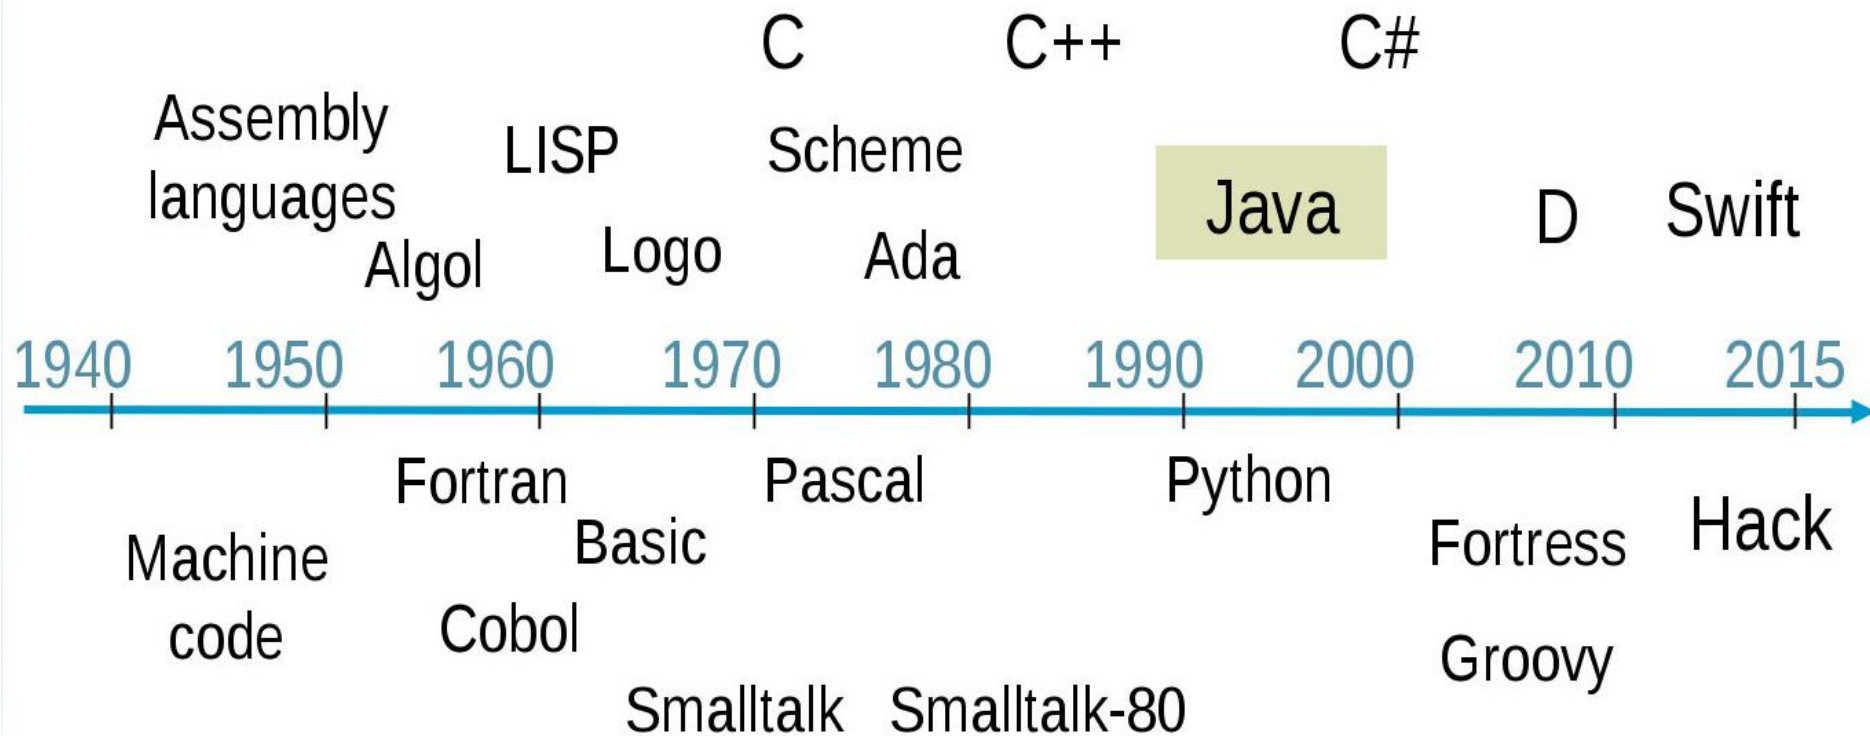

- simple, with standard de-facto syntax
- object-oriented, with inheritance and polymorphism support
- secure, with strict typing and exception hierarchy

- architecturally neutral, portable between operating systems
- multithreaded and distributed
- compiled and interpreted
- expandable and productive

Java is a mature programming language that includes the advantages of earlier languages

The official release date for Java is May 23, 1995 (Wikipedia)

Java is a universal program execution platform

Java Program

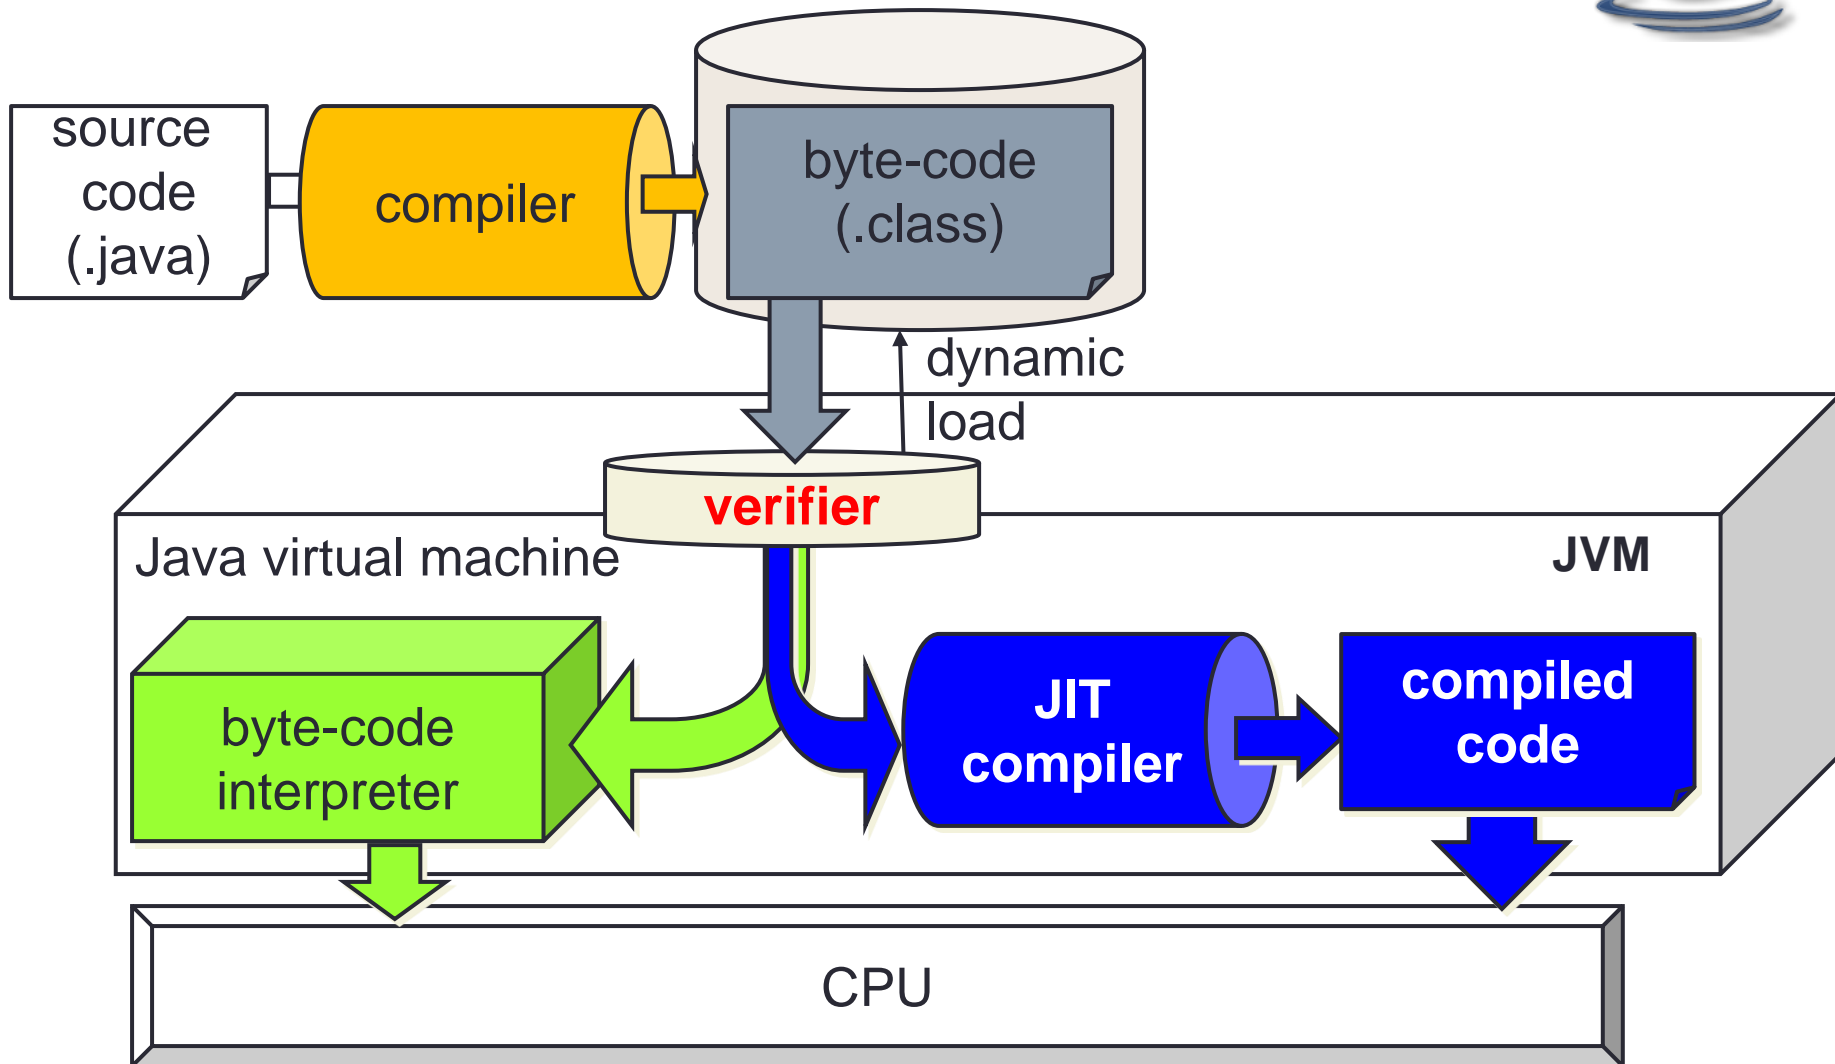

```
class HelloWorldApp {  
    public static void main(String[] args) {  
        System.out.println("Hello World!");  
    }  
}
```

Java is one of the most popular programming language

Sep 2022	Sep 2021	Change	Programming Language	Ratings	Change
1	2	▲	 Python	15.74%	+4.07%
2	1	▼	 C	13.96%	+2.13%
3	3		 Java	11.72%	+0.60%
4	4		 C++	9.76%	+2.63%
5	5		 C#	4.88%	-0.89%
6	6		 Visual Basic	4.39%	-0.22%
7	7		 JavaScript	2.82%	+0.27%
8	8		 Assembly language	2.49%	+0.07%
9	10	▲	 SQL	2.01%	+0.21%
10	9	▼	 PHP	1.68%	-0.17%

Java is the most used platform

- Java is used on 97% of corporate desktop PCs
- Java is used on 89% of desktops in the US
- 9 million Java developers in the world
- Tool number 1 among developers
- Program number 1 among developers
- Java is used in 3 billion mobile phones
- Java comes with 100% of all Blu-ray Disc players
- Used 5 million Java Card
- Java is used in 125 million TV devices
- 5 of the 5 major original equipment manufacturers include the Java ME package

Types of programs in Java: Desktop applications

Types of Java programs: Web applications

The screenshot shows a web browser window displaying a web application. The address bar shows the URL: `http://localhost:8080/TheWebApp/faces/Page1.jsp`. The page content includes a table titled "Users Record" with the following data:

Student Id	Contact No	Email	Name	Select To Delete
87000	808-2341567	stephanie@aol.com	Stephanie Lame	<input type="radio"/>
87001	808-7681569	ryan@gmail.com	Meg Ryan	<input type="radio"/>
87002	808-2348710	foster@yahoo.com	Jodie Foster	<input type="radio"/>
87003	604-7364518	mike_mar@gmail.com	Mike Amar	<input checked="" type="radio"/>
87004	705-4452345	nijar@aol.com	Alif Nijar	<input type="radio"/>
87005	880-5463547	richard_hall@aol.com	Richard Hallmark	<input type="radio"/>

To the right of the table, there are three buttons: "Add", "Delete", and "Update".

Java program types: Mobile applications

Three screenshots of mobile applications are displayed. The first screenshot shows the 'Tap Tap Revenge 4' app interface with a 'Track Pack' section featuring Bruno Mars songs. The second screenshot shows the 'Justice League: Generation Lost #22' app interface, displaying issue details and a purchase screen for \$2.99. The third screenshot shows the 'Comics' app interface, displaying a purchase screen for \$2.99. All three screenshots show the app's name, developer, and a 'Buy now' button with the price.

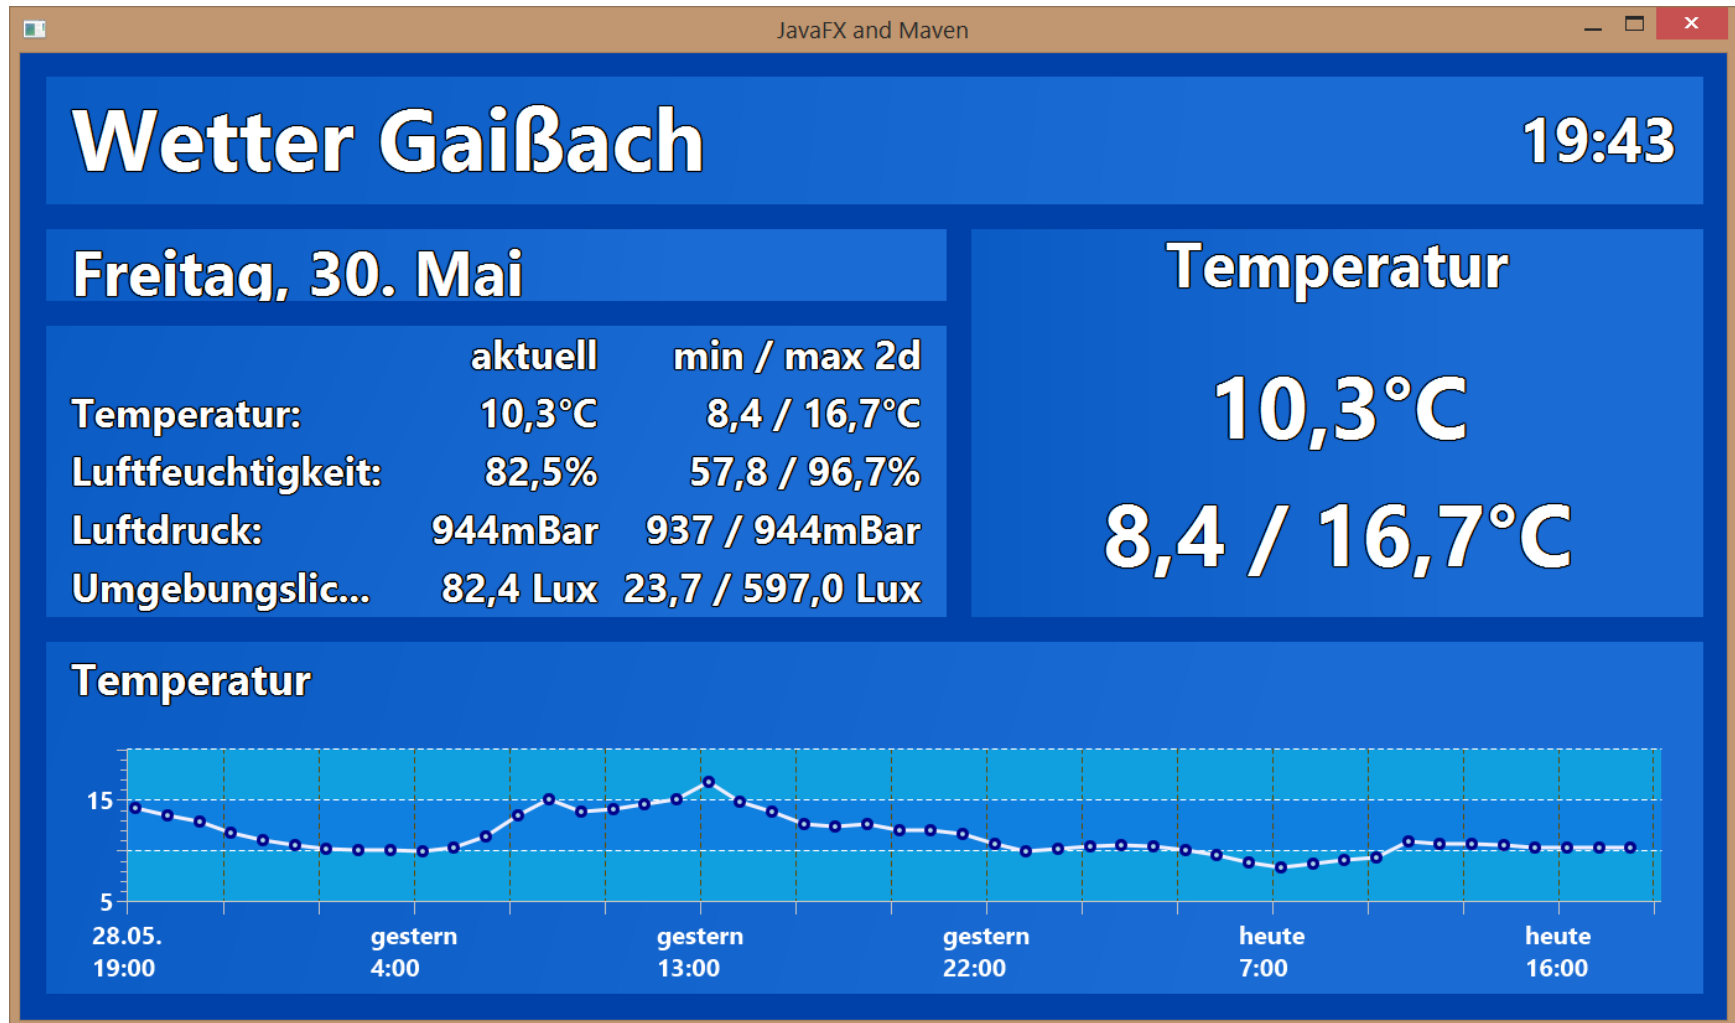

Java creates applications for the popular mobile platform Android

History of Java (SE)

Version	Date	New features
1.0	jan. 1996	Language release
1.1	feb. 1997	Inner classes, AWT events, JDBC, RMI, JavaBeans
1.2	dec. 1998	JIT-compiler, Swing, collections, Java 2D
1.3	may 2000	-
1.4	feb. 2002	Assertions, NIO, RegExp
5.0	sep. 2004	Generics, for each, autoboxing-unboxing, varargs, enums, import static
6	dec. 2006	-
7	jul. 2011	switch for String cases, diamond operator, binary literals, improved exception processing, Java NIO.2, Java FX - LTS to jul. 2022
8	mar 2014	Lambda-expressions, Optional, Stream API, Date/Time API, interfaces default methods, Nashorn - LTS to dec 2030

History of Java (SE)

Version	Date	New features
9	sep. 2017	Modularity (Jigsaw), jshell, var, collections fabric methods, Stream API improvements, interfaces private methods, new HttpClient API, Multi-release JARs, Flow API (reactive programming), processHandle, javadoc search
10	mar 2018	Open JDK, var for local variables, GC API
11	sep. 2018	LTS to sep 2026, API extension
12	mar 2019	switch Improvement, JVM Constants API, GC improvements
13	sep 2019	Text blocks, NioSocketImpl
14	mar 2020	Pattern Matching for instanceof, Records, Text Blocks, Packaging Tool, Switch Expressions
15	sep 2020	Hidden classes, Sealed classes and interfaces, remove the Nashorn JavaScript Engine

History of Java (SE)

Version	Date	New features
16	mar. 2021	Pattern Matching for instanceof, Records, Sealed classes, Stream.toList(), Stream.mapMulti()
17	sep. 2021	LTS to sep 2029, API extension
18	mar. 2022	switch pattern-matcher (2nd preview), @snippet JavaDoc tag, UTF-8 is now default coding
19	sep. 2022	structured concurrency, virtual threads, record patterns, pattern matching for switch expressions

The next LTS release is JDK 21

Welcome to the world of Java!
